Montgomery County Community College

SEPTA Bus Stop Project

Scope of work to include the following:

- Demolition of approx. 1625 SF of existing macadam, base stone and soils to a depth of 18” and removed from site.
- In addition of aforementioned demolition 60 SF of macadam, base stone and soils to a depth of 18” will be removed from site.
- All areas will be compacted and unsuitable soils will be removed from site.
- All areas of concrete restoration approx. 1625 SF, will be restored per drawings and specs from Pennoni Engineers.
- All areas of macadam restoration approx. 60 SF, will be restored per drawings and specs from Pennoni Engineers.
- All labor and material will be followed to the detail of attached drawings.
- Please provide unit pricing for removal and replacement of unsuitable soils.
- This project will be PA State Prevailing Wages, see attached.
- Note, all areas not under construction must be protected.
